

Rogers Fire Department Standard Operating Procedures

Policy Title:	Department Organization		
Policy Number:	154	Volume:	Administration
Approved By:	Tom Jenkins	Last Updated:	October 2014
CFAI Reference:	1B.1, 1B.4, 7D.1, 7D.2	CAAS Reference:	N/A
Revision Summary:	Created – December 2010 Formatted – May 2012 Updated – July 2012 Updated – December 2012 (Rescue 5 Staffing) Updated – October 2014 (Medic 7 & FEO Staffing)		

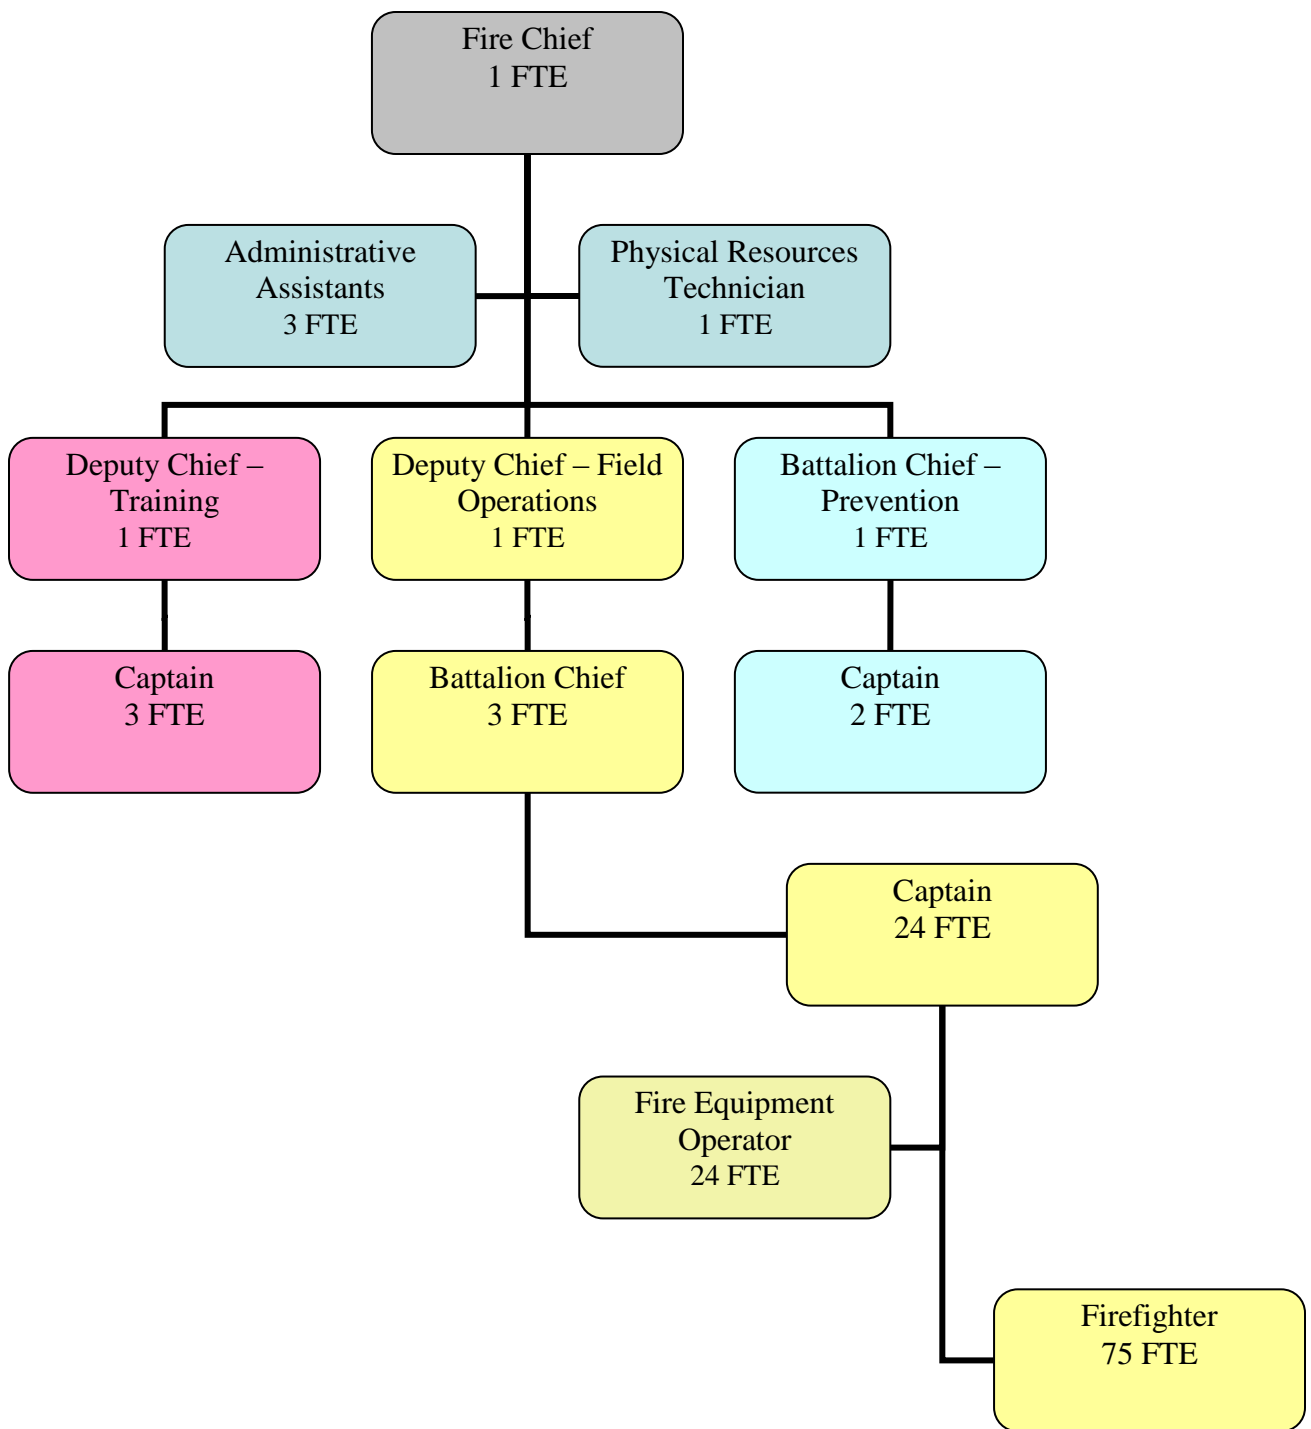

PURPOSE

Because of the complex nature of fire department management, it is necessary to establish working responsibilities and orientation with various stakeholders.

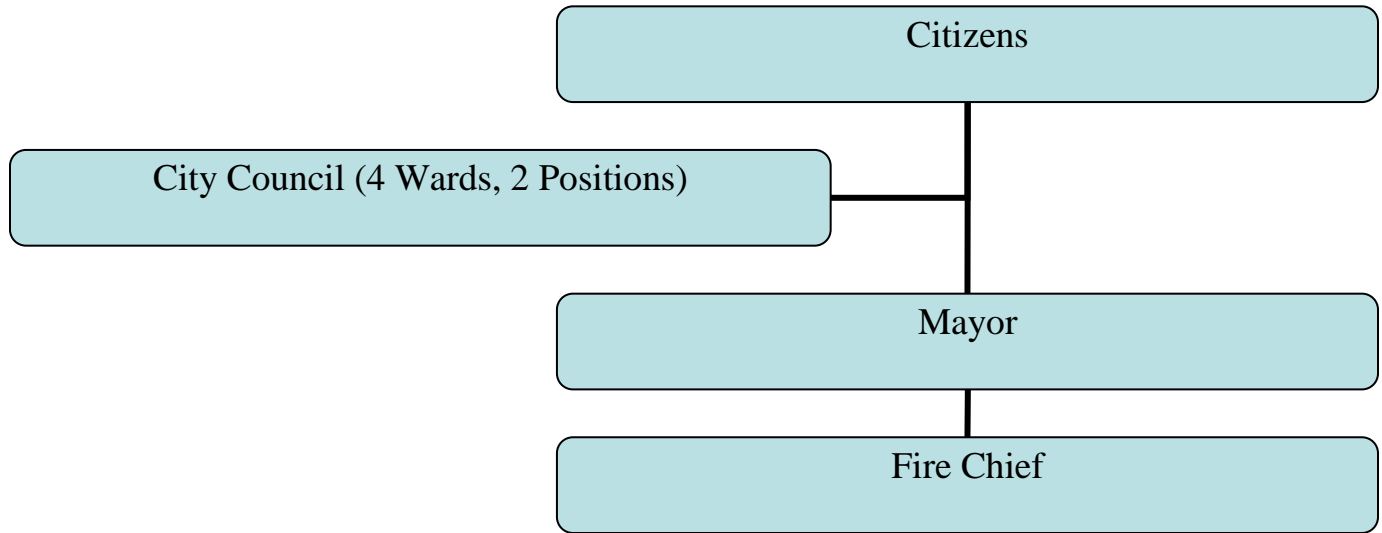

POLICY

1. Organizational Chart

Below is the adopted organizational chart for the Rogers Fire Department.

Below is the adopted organizational chart for the City of Rogers.

2. Organizational Meetings

The department will strive to have productive and systematic meetings with various stakeholders to ensure effective operations. Meetings shall occur as follows:

- A. Command Staff – Weekly
- B. Company Officers – Monthly
- C. Entire Department (3 Shifts, 3 Days) – Quarterly
- D. Mutual Aid Departments – Biannually

3. Job Descriptions

(See Below)

3A - Chief

Definition:

Under general direction of the Mayor, to plan, direct, supervise and coordinate the operations of the Fire Department in preventing and extinguishing fires, delivering emergency medical services, performing rescues, mitigating hazardous materials emergencies, and in protecting life and property; to provide highly responsible and technical staff assistance to the Mayor, City Council and operating departments; to perform related work as required.

Typical Duties:

Plan, organize, direct, coordinate and, as necessary, participate in all activities of the Fire Department; develop and maintain rules and procedures for fire prevention and firefighting personnel; direct investigations to determine cause and origin of fires and assist in the prosecution of arsonists; direct the enforcement of Federal, State and local fire codes and regulations; direct the formulation and implementation of in-service training; respond to media as key department spokesperson; confer with agents of other governmental jurisdictions, with the Insurance Services Office; provide disaster response coordination; supervise the requisition, maintenance and operation of firefighting equipment; make regular and special reports of departmental activities to the Mayor; keep abreast of new developments in firefighting, fire prevention, training and administration; prepare and administer the department budget; represent the City in the community and at professional meetings as required; direct the maintenance of records of fire calls and fire losses; supervise, train and evaluate assigned staff; operate department computers; perform related assignments as necessary.

Tools and Equipment Used:

Command vehicles, fire apparatus, personal protective equipment, and other standard firefighting, hazardous materials response, and rescue equipment, first aid equipment, radio, pager, personal computer, phone.

Physical Demands:

While performing the duties of this job, the employee is frequently required to sit and talk and hear. The employee is frequently required to walk, sometimes on uneven surfaces; use hands to finger, handle, or feel objects, tools, or controls; and reach with hands and arms. The employee is occasionally required to climb or balance; stoop, kneel, crouch, or crawl, sometimes in confined spaces; and taste or smell.

The employee must frequently lift and/or move up to 25 pounds and occasionally lift and/or move up to 175 pounds. Specific vision abilities required by this job include close vision, distance vision, peripheral vision, depth perception, and the ability to adjust focus.

Work Environment:

Work is performed primarily in office, vehicles, and outdoor settings, in all

weather conditions, including temperature extremes, during day and night shifts. Work is often performed in emergency and stressful situations. Individual is exposed to hearing alarms and hazards associated with fighting fires and rendering emergency medical assistance, including smoke, noxious odors, fumes, chemicals, liquid chemicals, solvents, and oils and combating hazardous materials emergencies. The employee occasionally works near moving mechanical parts and in high, precarious places and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, toxic or caustic chemicals, risk of electrical shock, and vibration. The noise level in the work environment is usually quiet in office settings, and loud at an emergency scene.

Desired Qualifications:

Knowledge of: Principles and practices of modern firefighting and fire prevention practices; laws, ordinances, rules and codes affecting the activities of the Fire Department; principles and practices of organization, administration, budget and personnel management; principles and techniques of modern first aid, rescue and resuscitation; geography, types of building construction, major fire hazards, water supply, fire and building laws and regulations of the City of Rogers.

Ability to: Plan, formulate and administer sound departmental policies and procedures; communicate clearly and concisely, both orally and in writing; establish and maintain cooperative relationships with subordinates, other City officials and the public; understand and relate fire problems and priorities with overall City objectives; prepare and administer the departmental budget; oversee purchasing; assure inventory control.

3B- Deputy Chief

Under general direction of the Fire Chief, to plan, supervise, and coordinate the activities and personnel of a Fire Department Division or Bureau; to perform the role of Department Command/Duty Chief; to provide highly responsible and technical staff assistance; to provide leadership in accomplishing fire suppression, rescue, hazardous materials response, fire prevention, training, and safety goals of the Department; and to serve as Acting Fire Chief in the absence of the Fire Chief.

Typical Duties:

Command fire department resources on all types of emergencies, including the most complex fires, rescues, and hazardous materials incidents; research and recommend Department policy; plan, organize, schedule, and conduct fire training; develop specifications and assist in the procurement of emergency apparatus and equipment; assist in site selection and design of Fire Department facilities; research and assist in design of Department dispatch, communications, and computer systems; supervise the maintenance of departmental administrative, inspection, training, and safety records; conduct drills and inspections; coordinate specialized skills such as hazardous materials, aircraft rescue firefighting, rescue, emergency medical services, and critical incident stress; serve as Fire Department Health and Safety Officer; supervise and evaluate assigned staff; coordinate Fire Department activities with other City, County, State, and Federal agencies; supervise Department personnel, procurement, budget, and accounting activities; coordinate the maintenance of Fire Department vehicles and facilities; perform related assignments as necessary. This position may be subject to emergency recall during non-working hours.

Tools and Equipment Used:

Various fire apparatus or command vehicles, fire pumps, personal protective equipment, hoses and other standard firefighting equipment, hazardous materials response, and rescue equipment, ladders, emergency medical equipment, radio, pager, personal computer, phone.

Physical Demands:

While performing the duties of this job, the employee is frequently required to sit and talk and hear. The employee is frequently required to walk, sometimes on uneven surfaces; use hands to finger, handle, or feel objects, tools, or controls; and reach with hands and arms. The employee is occasionally required to climb or balance; stoop, kneel, crouch, or crawl in confined spaces; and taste or smell.

The employee must frequently lift and/or move up to 25 pounds and occasionally lift and/or move up to 175 pounds or more with assistance. Specific vision abilities required by this job include close vision, distance vision, peripheral vision, depth perception, and the ability to adjust focus.

Work Environment:

Work is performed primarily in an office, vehicles, and outdoor settings, in all weather conditions, including temperature extremes, and during day and night. Work is often performed in emergency and stressful situations. Individual is exposed to hearing alarms and hazards associated with fighting fires and rendering emergency medical assistance, including smoke, noxious odors, fumes, chemicals, liquid chemicals, solvents and oils, and combating hazardous materials emergencies.

The employee occasionally works near moving mechanical parts and in high, precarious places and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, toxic or caustic chemicals, risk of electrical shock, and vibration. The noise level in the work environment is usually quiet in office settings and loud at an emergency scene.

Desired Qualifications:

Knowledge of: Standards, principles, practices, and procedures of modern fire suppression, emergency medical services, rescue, and hazardous materials response and organization; operation and maintenance of fire and rescue apparatus; geography, demographics, building types, water supply, and special hazards in the City of Rogers; Federal, State, and local laws, regulations, and codes pertaining to fire prevention, emergency services, and worker safety standards; methods and techniques of fire service training; operation and maintenance of fire and rescue apparatus and equipment; principles and practices of public administration including organization, fiscal affairs, and personnel management; and basic computer applications.

Ability to: Efficiently and effectively utilize personnel, equipment, and apparatus in routine and emergency situations; develop and implement training and fire safety and prevention programs; maintain and improve discipline and morale; receive respect and support of subordinates; communicate clearly and concisely, both orally and in writing; establish and maintain effective and cooperative working relationships with other City staff, other agencies, the media, and the general public; be appointed a peace officer if required.

3C - Battalion Chief

Definition:

Under general direction of the Fire Chief, to plan, supervise, and coordinate the activities and personnel of a Fire Department Shift; to perform the role of Department Command; to provide highly responsible and technical staff assistance; to provide leadership in accomplishing fire suppression, rescue, hazardous materials response, fire prevention, training, and safety goals of the Department.

Typical Duties:

Ability to: Perform all the duties of a firefighter; communicate clearly and concisely, both orally and in writing; supervise and coordinate subordinates in an efficient and effective manner; operate apparatus and equipment used in modern firefighting and rescue activities; conduct thorough fact finding inspections and investigations; plan and conduct fire/rescue training and drills; establish and maintain cooperative working relationships with subordinates, superiors, other City employees and the general public; supervise, train and evaluate assigned personnel, maintain certification in Cardiopulmonary Resuscitation and as an Emergency Medical Technician including operation of an Automatic External Heart Defibrillator.

3I - Firefighter/Paramedic

Definition:

Under general supervision, to engage in firefighting, emergency medical services, rescue, hazardous materials response, and fire prevention activities in order to protect life and property; to operate and maintain firefighting equipment and apparatus; to provide emergency medical services; to maintain fire facilities; to perform related work as required.

Additionally, a Paramedic/Firefighter must respond to medical emergencies and provide advanced life support pre-hospital care to victims of injury or illness. A Paramedic/ Firefighter is ordinarily the highest medical authority at an emergency medical scene and as such, makes medical decisions based on standing orders, protocols and orders from on-line and off-line medical directors.

Typical Duties:

Respond to all fire alarms with designated equipment; connect and appropriately place fire hose lines; enter burning buildings with hose lines; operate nozzles to direct the stream of water on fire surfaces; raise, lower and climb ladders; assist in overall salvage operations; carry and operate chemical fire extinguishers; performs complex diagnostic and medical procedures such as intravenous cannulation, endotracheal intubation, recognition of cardiac arrhythmias and administration of drugs; comprehends and documents patient histories; checks drugs and equipment daily to ensure proper control and inventory; drives and maintain fire apparatus; clean and test equipment; perform basic maintenance of vehicles; operate radio-telephone equipment as required; clean and maintain station facilities and quarters; explain Fire Department rules, regulations and procedures; explain fire hazards, firefighting techniques, fire codes and related subjects; conduct fire prevention inspections and programs; participate in fire drills and training exercises; may be required to act as apparatus operator and driver when assigned; assist in identifying hazardous materials and mitigating such emergencies; subject to emergency recall during non-duty hours; operate fire station computers; performs related duties as necessary.

Tools and Equipment Used:

Various fire apparatus, fire pumps, hoses, and other standard firefighting, hazardous materials response and rescue equipment, emergency medical equipment, ladders, first aid equipment, personal protection equipment, radio, pager, personal computer, phone.

Physical Demands:

While performing the duties of this job, the employee is frequently required to sit and talk and hear. The employee is frequently required to walk; use hands to finger, handle, or feel objects, tools, or controls; and reach with hands and arms.

The employee is occasionally required to climb or balance; stoop, kneel, crouch, or crawl on uneven surfaces or confined spaces; and taste or smell.

The employee must frequently lift and/or move up to 25 pounds and occasionally lift and/or move up to 175 pounds or larger with assistance. Specific vision abilities required by this job include close vision, distance vision, peripheral vision, depth perception, and the ability to adjust focus.

Work Environment: While performing the duties of this job, the employee regularly works in outside weather conditions in temperatures ranging from below freezing to in excess of 100 degrees Fahrenheit. The employee occasionally works near moving mechanical parts and in high, precarious places and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, toxic or caustic chemicals, risk of electrical shock, and vibration.

The noise level in the work environment is usually moderate, except during certain firefighting or EMT activities when noise levels may be loud.

Desired Qualifications: Knowledge of: Basic principles, practices and purposes of fire, rescue, hazardous materials, and emergency medical services at the emergency medical technician level. Must maintain state-mandated continuing education requirements, including current American Heart Association (AHA) certification in Advanced Cardiac Life Support (ACLS) and Pediatric Advanced Life Support (PALS), or equivalent.

Ability to:

Understand and act in accordance with Fire Department rules and instructions; demonstrate physical endurance, agility and strength in accordance with established standards; demonstrate a high degree of mechanical aptitude in the operation and maintenance of firefighting equipment; learn firefighting techniques and the operation of fire apparatus; learn emergency medical and rescue techniques; obtain Cardiopulmonary Resuscitation and Emergency Medical Technician certification; learn layout of City streets, buildings, hydrants and fire hazards; analyze fire and driving situations and employ effective courses of action; think and act quickly and appropriately in emergency situations; apply emergency medical treatment; drive and operate fire equipment as necessary; understand and follow oral and written instructions; deal effectively and courteously with the general public; establish and maintain cooperative working relationships with those contacted in the course of work; communicate clearly and concisely, both orally and in writing.

3J – Fire Equipment Operator

Definition:

Under general supervision to safely drive, operate, maintain, and provide minor repairs to various fire apparatus; to operate and maintain firefighting, rescue, and emergency medical equipment; to engage in firefighting, emergency medical services, rescue, hazardous materials response, and fire prevention activities; to maintain fire facilities, to perform other work as required.

Typical Duties:
